manufacturer of the finest custom-made aircraft covers

Tech Sheet: Fairchild Dornier 328 (jet engines)

(fairchild-dornier-FD328.pdf)

Fairchild /Dornier 328 Engine Covers

Section 2: Engine Covers

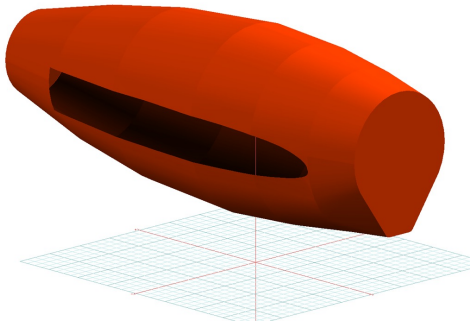

Tri-Fold Ring Engine Covers are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder in many cases. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffle bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight Solution-Dyed Polyester which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

ALL-YEAR USE MATERIAL - Made with Solution dyed Polyester fabric, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

The **Fairchild Dornier 328 (jet engines) Bikini Style Engine Covers** are a single-piece design using a soft and smooth stretchy and fabric. The cover stretches tightly over both the intake and exhaust, installing quickly and easily. These covers are designed to be used as hangar dust covers and have a useful life of approximately one year.

Fairchild/Dornier 328 Engine Covers

Citation S550 Complete Nacelle Cover, 3D model

Description	Part Number	Price
ENGINE COVERS, jet engines (set of 6)	**FD328-100**	**$1100.00**
NACELLE COVERS, jet engines, fully enclosed (set of 2)	**FD328-110**	**$1515.00**
ENGINE COVERS, Hangar Use, Bikini Type (set of 2)	**FD328-130**	**$905.00**

Section 3: Plugs & Protection

Fairchild Dornier 328 (jet engines) Heat Resistant Pitot Tube Covers, are made of Naugahyde vinyl, and lined with a non-burning material. They are designed to cover the entire pitot assembly, slipping over the tube and tightening around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to our standard design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

Description	Part Number	Price
PITOT COVERS, heat resistant type (set of 3)	**FD328-205**	**$225.00**

Section 5: HeatShields & Sun Reflectors

Cockpit Heatshields are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. Our Heatshields for jets are offered white side out because some aircraft manufacturers have issued advisories against reflective window inserts due to potential heat damage. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Description	Part Number	Price
COCKPIT HEATSHIELD SET (set of 4)	**FD328-900**	**$365.00**

Prices subject to change. Other Covers and Design Alterations: Prices on request.
